

August 16th 2018

Organizational Changes TLS lifts Inc.

Effective August 20th 2018 Anthony DeGrazia will be joining TLS Lifts Inc. assuming the newly created position of Sales Manager for the TLS Group of Companies. Anthony's responsibilities will involve all brands and products including light, medium and heavy duty lifts sold to both commercial and retail hobby car buyers.

Anthony joins TLS Lifts after spending over five years as the General Manager for Innovative Steel Solution (ISS) / Heavy Duty Lifts. As a supplier to TLS, Anthony has worked very closely with our customers and distributors with in ground light and heavy duty lifts and is very familiar with the way we operate having worked with us on numerous large projects in both the USA and Canada.

TLS has undergone rapid growth since 2005 and it was important that we added someone well versed in our industry who could support the efforts of our key customers with technical sales support. Anthony has travelled North America extensively in his career and has been successful developing strong lasting relationships with his customers.

Anthony can be reached at adegrazia@tllifts.com or his cell phone 416-997-8450. He will be an integral part of our SEMA show booth #41213 this year so we encourage everyone drop by and meet Anthony in person.

Sincerely,

Harold O. Yeo
President
Total Automotive Lifting Solutions Inc.
