

Lift it.
Store it.
Repair it.

The TLS Lift Group Announcement

The TLS lift Group has just announced plans to significantly expand the Liftsuperstore marketing partnership in the USA and Canada. First started in 2005, the Liftsuperstore has already grown to five (5) locations.

Individuals with a passion for the automotive business that want to run their own business can benefit from the over thirteen (13) years of experience gained from assembling one of the most comprehensive selection of vehicle lifts in the industry.

The program is setup to purchase direct from the factory resulting in attractive gross profit margin opportunities. Extensive internet marketing expertise and SEO (search engine optimization) delivers sales opportunities and market presence.

Liftsuperstore candidates are provided with extensive marketing and technical training. All of the tools are provided from brochures and product manuals to banners and local advertising layouts. Each Liftsuperstore partner is provided with a protected market with no royalties, startup or franchise fees.

There are a number of factors making the Liftsuperstore products more attractive than the other internet sellers. Most of the lifts are designed here in North America and they all include North American key components. Product warranties are longer and more comprehensive because of better quality. Parts and technical support are available six days a week.

For information regarding the TLS Group or the Liftsuperstore please contact 866-799-LIFT (5438) or adegrazia@tlslifts.com.
